Len OTA

UNITED STATES INTELLIGENCE BOARD
SCIENTIFIC AND TECHNICAL INTELLIGENCE COMMITTEE

17 DEC 1975

The Honorable Emilio Q. Daddario
Director, Office of Technology Assessment
Congress of the United States
Washington, D.C. 20510

Dear Mr. Daddario:

I appreciate so very much your accepting my invitation to meet with the STIC in early January. We all look forward to having you with us. We will meet in Room 6F25, CIA Headquarters, at 0930 on 8 January. You will be met at the main entrance of the building upon your arrival. Attached is a chart of the STIC organization and list of members for your information; about 20 persons normally attend each meeting. Our meeting is flexible and may be formal or informal, as you wish; a vu-graph projector and screen, blackboards, etc., are available.

For our agenda, we will list your meeting with us as a discussion of key foreign technology assessments of importance for OTA. If you prefer a different title or have any questions please call me or have your office call [redacted] the committee's executive secretary, on code 143, [redacted]

STAT
STAT

Since our members' knowledge of OTA is limited, it might be useful to distribute prior to the meeting copies of your annual report to the Congress, which I have found very useful. If you agree, [redacted] will be glad to distribute them for you. He will also reconfirm to your office the date, time and place after the first of the year.

STAT

I hope that you have a very happy holiday season and New Year.

Yours sincerely,

[redacted]

Enclosure: A/S

TO MR. CARY

FROM: Don

DATE 15 January 1976

SUBJECT:

SUSPENSE DATE

NOTE: In answer to your question of who initiated Daddario's meeting with STIC, when [] first met with Daddario last week they agreed to hold future meetings every three or four months. [] Executive Secretary to the Scientific and Technical Intelligence Committee, informed me that STIC likes to have outside speakers at their meetings, and Daddario was another in a series of speakers arranged at [] initiative. [] invited me to attend the meeting, at which Daddario traced the need for an OTA, the history of its establishment, and its current areas of interest. Since the meeting I have delivered a short STIC document entitled Views on Emerging Areas of Science and Technology Potentially Important to National Security for Daddario's perusal.
